## **Stanbio Laboratory Recognized by Texas Governor**

*Official Recognition Given for 50 Years in Business*

**BOERNE, TX – January 29, 2010** – Stanbio Laboratory, L.P., a leader in medical testing and diagnostic devices, has been recognized by the State of Texas and the Texas Governor, Rick Perry, for its 50 years in business.

2010 marks Stanbio's 50<sup>th</sup> Anniversary, since registering with the required articles of incorporation back in 1960. Throughout this time Stanbio has experienced continuous growth and product development to include the acquisition of the ALKO product line from Thermo Scientific and the introduction of innovative products such as their  $\beta$ -Hydroxybutyrate LiquiColor<sup>®</sup> reagent, STAT-Site<sup>®</sup> Ketone Analyzer and HemoPoint<sup>®</sup> H2 Hemoglobin System with data management.

“Since joining Stanbio Laboratory in 1988, I have had the pleasure of doing business with our distribution partners and customers around the globe. It is indeed a milestone that nearly any company would love to achieve and one I am both proud and thankful for,” said William R. Pippin, President of Stanbio Laboratory. “The first 50 years have been a tremendous journey for our company, and I cannot wait to see what the next 50 years will bring.”

Founded in 1960 and headquartered in Boerne, Texas, Stanbio manufactures and sells medical testing and diagnostic devices including clinical chemistry, pregnancy, serology, urinalysis, and point-of-care blood hemoglobin tests. Stanbio Laboratory's Quality System is ISO 13485 registered and its facility operates under the USFDA current GMP requirements. Stanbio also offers OEM and private labeling capabilities.

Currently, Stanbio distributes products in over 125 countries worldwide. This year the company celebrates its 50<sup>th</sup> year in business. To find out more about Stanbio, review its news, or learn more about its products, visit [www.stanbio.com](http://www.stanbio.com).
